

THINK LIKE A SCIENTIST

ASK QUESTIONS

Ask yourself, "What do I want to learn more about?", or "I wonder what might happen if...?"

GATHER INFORMATION

Research information to help you better understand your science topic.

MAKE A HYPOTHESIS

Make a hypothesis, or educated guess, that you think answers your question.

CONDUCT AN EXPERIMENT

Plan a procedure and follow the steps to test your hypothesis.

OBSERVE & RECORD RESULTS

Make observations, reflect on your results, and draw conclusions.

SHARE RESULTS

Communicate your results by presenting your experiment, observations, and conclusions.
